VENUE

B BLOCK AUDITORIUM COLLEGE OF NURSING

ORGANIZED BY

MSc NURSING 2023 BATCH

KNC CREDIT POINTS WILL BE AWARDED

INTRODUCTION

Qualitative research methodology involves a holistic approach to understanding and interpreting human experiences, behaviour, and social phenomena. It explores the depth and context of subject through techniques such as in-depth interview, observations and content analysis. By delving into the depths of qualitative research you will gain a profound understanding about human behaviour, society and culture. It also facilitates exploration of phenomena which can't be measured through a quantitative method. Most importantly, this workshop assures opportunity to enhance your qualitative research interest.

GENERAL OBJECTIVES

At the end of the workshop, the participants will be able to develop comprehensive knowledge on qualitative research methodology, appreciate its importance and apply this knowledge in conducting qualitative research in various settings.

SPECIFIC OBJECTIVES

At the end of the workshop, the participants will be able to:

- explore the concepts of qualitative research
- discuss the various qualitative research designs
- acquire skills in identification of qualitative research topics and data collection
- describe mixed methodology as a research design
- acquire skill in coding, theme extraction and data analysis in qualitative research.
